

love the life you live, live the life you love

H²K[®]

H2K[®] ETHOS

Indulge your day with our range of body gels/sprays. Comfort yourself in the knowledge that H2k cares for your skin like you do. Feel the difference with H2k.

H2k was founded by Managing Director, Hazel Barry.

Now 32, in order for Hazel to live her life she has devised a lifelong plan, the first part starting in skincare. She established the business in year 2000 in the hope of manufacturing products to help her skin which is affected by medication due to a chronic condition Ulcerative Colitis. The effects of the medication often lead to 'dryness, oil instability in the face, shoulder and back', thus causing redness, spots and tiredness round the eye area. H2k products were originally manufactured to help those in a similar situation, but as the brand has grown, more products have been developed for all skin types.

To get the brand well-known in the early years, H2k mainly sold their toiletries and skincare into the hotel and leisure industry before entering the on-line retail and spa skincare sector, both nationally and internationally.

By the 7th Year, H2k founded 'OILOVME'. This was a huge break for H2k as the product can be used all over the face and body and can considerably rejuvenate the skin. Since the launch in April 2007, this versatile product has been sold worldwide helping many with it's sun protection, intensive moisturising, reducing redness and the appearance of wrinkles properties.

What makes H2k different now:-

H2k believe the future lies in an organic way of living and the only way to move forward is to listen to the expertise from leading spa professionals. With this in mind H2k are launching their very own natural spa facial and body range. These are amazingly beautiful creams and emulsions, designed to deliver fantastic face and body treatments to the most exclusive spa patrons. Some treatments are organic and have been created to evoke the senses with luxurious textures, leaving the skin soft and silky to touch, delicately scented to create ambience and a sense of serenity.

Spa users require pampering and indulgence, in order to achieve their lifestyle and maintain equilibrium.

H2k's lifelong plan:-

H2k truly believe the answer to the work/life balance is a healthy, thus happy way of living happily and for longer. Eventually H2k will be able to offer H2k Lifestyle Consultancy/Coaching along with a Healthy Eating and Skincare plan, so one can work in harmony with one's body on a daily basis.

H2K[®] OILOVME

Indulge your day with our range of oils and SPFs. Feel the difference with H2k.

Oilovme

Product Code: OILOVME

Oilovme is to be used as part of your daily skincare routine as a cleanser and moisturiser. This calms, soothes and reduces irritation, whilst balancing skin functions. Whilst high in Vitamin E, this 'miracle must have' is ideal for stretch marks, reducing redness and bags under the eye. With the SPF20, it is no wonder many pregnant women have enjoyed the benefits of reducing the appearance of stretchmarks, whilst also being sun protected with SPF20.

“live life the H2k way”

Calming

Every day our skin is exposed to numerous factors such as pollution, smoke, stress etc. These aggressors over time can age your skin, leaving it feeling tight and dehydrated. Using H2k skincare can help to reduce these feelings, leaving your skin healthy and youthful. Leading technology has helped us provide indepth products which care for your skin 24 hours a day.

200ml Gentle Clarifying
Eye & Facial Cleanser

Product Code: SKIN200CLEANS

Cleansing milk for the face and eyes with Calendula extract which helps to calm the skin, leaving it clean and soft. Apply to the face with circular movements and then remove with cotton wool or a cotton pad.

200ml Refreshing Toner

Product Code: SKIN200TONE

Carefully developed to calm the skin and refresh the pores after cleansing.

200ml Healthy Glow
Moisturiser

Product Code: SKIN200MOIS

200mls of healthy glowing moisturiser cares for your face day and night. Apply before make up or after toning, this specially formulated moisturiser has been proved to reduce redness and calm skin.

Oilovme

Product Code: OILOVME

Oilovme is to be used as part of your daily skincare routine as a cleanser and moisturiser. This calms, soothes and reduces irritation, whilst balancing skin functions. Added SPF20 gives that added sun protection for anti-ageing.
