

## ANYAH - Eco Spa Treatments

### The Collection:

ANYAH is a high quality and eco-friendly amenities collection designed to promote well-being and meet the strictest requirements needed to protect the environment. The marriage of these two goals has generated a superior, spa-quality treatment line, of which many products are certified by EcoLabel and EcoCert. These certifications are the most recognised and sought after European environment classifications.

Made in Italy, ANYAH formulations are created using quality raw materials with reduced environmental impact, many sourced from organic farming and almost all of natural origin.
